

PIGMENT PAIRING MIXING RATIOS AND TECHNIQUE

PIGMENT Pairing	Dominant Color	Accent Color	Base Color
PB-01	90% Whale	10% Pearl	Black
PB-02	90% Great White	5% Caviar 5% Dolphin	Light Grey
PB-03	90% Pearl	10% Ocean	Light Grey
PB-04	90% Azure	10% Ocean	Black
PB-05	90% Maui	5% Caribbean 5% Great White	Black
PB-06	90% Margarita	10% Kona	Black
PB-07	90% Sandal	10% Sandbar	Black
PB-08	90% Shipwreck	10% Lager	Black
PB-09	90% Starfish	10% Coral	Black

RECOMMENDED INSTALLATION TECHNIQUE

After preparing the surface and applying a pigmented basecoat, mix the PIGMENT with the preferred resinous coating. Dominant and Accent colors should be mixed separately.

The Dominant color is to cover the entire floor, while the Accent color is lightly drizzed on top and swirled in with a roller.

Use caution to not overwork the accent color! This will create a “muddy” appearance rather than a marbled one.
